

## **Triangle Insights Group Ranked Among Fastest Growing Consulting Firms in 2017**

Research Triangle Park, NC: November 10, 2017

### **Premier life science consulting firm attributes growth to high caliber talent**

Triangle Insights Group, a premier life sciences consulting firm, announced today that it ranked #18 on Consulting Magazine's 2017 list of Fastest Growing Consulting Firms. Triangle Insights is the fastest growing consulting firm that focuses exclusively on the commercial life sciences sector. The ranking is based on revenue growth over the last three years, with 75 firms in the rankings.

The recognition comes at a time of exceptional growth in revenue, client base and project reach. "Being recognized as one of Consulting Magazine's Fastest Growing Firms is a tremendous honor, and serves as a nice endorsement of the incredible work and high-quality client delivery that our employees strive for every day," stated Ben Bonifant, one of the firm's partners.

When asked by the magazine about the main factors contributing to the firm's exceptional growth, Barrett Rankin, another Triangle Insights partner, answered, "In short, our people. Our ability to attract high-caliber talent in RTP and San Francisco (spanning MBAs, PhDs, MDs, and PharmDs) has enabled us to build a team that consistently delivers top-quality work to executives within life sciences firms." He adds that "[o]ur commitment to top-quality work drives repeat business and referrals, both of which have served as the backbone of our growth to date."

The firm anticipates continued growth into 2018, fueled by expansion of current client relationships and the ability to penetrate new accounts. Among the anticipated high growth areas are oncology, dermatology, cell and gene therapies, and orphan diseases.
